developer_1 Today at 4:24 AM

@developer_2 will do in the morning, it is a bed time here

developer_2 Today at 4:24 AM

Ah no worries, take your time!

Sorry I'm not much of help. 👍

developer_1 Today at 4:26 AM

@developer_2 ah, no worries, let's do another try later 😊
enjoy your day!

developer_3 Today at 4:26 AM

In Angular 11, when setting an input or a set of inputs on a ComponentRef is it proper to just do something such as `cref.instance[propertyName] = value;` and then do `cref.hostView.markForCheck();`
